**FREQUENTLY ASKED QUESTIONS**

**How long will my wreath last ?**

Hung outdoors, your wreaths should last throughout the holiday season and well into the new year. What may affect the greens is if your door faces south with long periods of direct sunlight, or hanging a wreath between a door and storm door creating a greenhouse effect. Some people like to hang our product indoors for part of the season to enjoy the balsam fir fragrance, then hang outdoors for longer enjoyment. When using indoors, misting with water may prolong the freshness. When the greens begin to look tired, mist and return to the outdoors. In cool moist climates, the product may reclaim some of its freshness.

**Why are the decorations separate from the ring of brush?**

The decorations have been placed on picks for easy insertion into the wreath. The bow has both a pick for placement and a wire to tie around the wreath for a secure hold. While decorating, do not be alarmed if you lose some needles, this is normal. Many customers have sent us pictures showing their decorating styles. It runs about half and half whether the bow is at the bottom or the top of the wreath, with some preferring the bow on the side. Most decorations are done in groups of three, one group opposite to the bow and the other two on the sides. We have also seen wreaths with the bow at the top with the tails cascading over all the decorations grouped together at the bottom. The bows tails have been made long in case you wish to cut to a shorter length. Whether you hang your wreath on the front door or the fence post at the end of your drive, our Cadet's desire is that you can personalize your greenery in an easy and enjoyable way. HAVE FUN!!
